# CHILD SAFE UGANDA JANUARY PROGRES REPORT 2022

Dear Friends and Partners CSU

Warm and sincere greetings from everyone here; hope you are all well  
Feeling delighted to share with you the first report in 2022 on the  
progress of CSU. Hope you read every bit of it. Blessings.

Generally the Children have been okay and started the year with  
much excitement after the news of opening the schools were  
announced.

We thank the almighty God who has uplifted the covid-19 lockdown  
and all children have been allowed to go back to school and indeed  
the whole month has been dominated by the preparations through  
counseling on both individual and group basis.

**In the picture is one of the counseling sessions to prepare the children for school after a very long holiday.**

An after lockdown sensitization meeting to adolescents in CSU program was held successfully. The purpose of the meeting was to prepare them for school by uplifting their morale, sensitizing them on healthy relationships and how to manage challenges

We have also held several other year opening meetings which include one Executive board meeting and the management Committee meeting of BCH. All these meetings were successful.

## **Conclusion**

A big thank you to everyone and mostly our partners in Uganda and Germany. Our regular prayer is God's abundant blessings. We wish you the best as ever, in this new year 2022.

Moses and Team
